

Have you joined the “juicing” bandwagon but have been struggling on what the right veggies and fruits to put in? Are you diabetic? Are you trying to lose weight? If yes, this is for you! Vooluu’s All-in-One Green Protein Shake is the best the market has to offer! I’ve been a user of Spirulina shakes before, but this one is different and has more healthy ingredients that target not just one of your health problems, but your entire well-being. It is 100% safe and natural with no harmful chemicals – it has no dairy, no sugar, no soy, non GMO, and is Gluten Free! It is the perfect and ideal product for busy diabetics like me. When I started drinking Green Shake, I no longer felt sleepy in the afternoon, even if my mind was overly stressed from crunching numbers (I’m an accountant). Green Shake is an energy booster and stress reducer! I’d say it’s an immuno-booster too! I work in a very cramped office; I usually catch colds and cough from my co-workers, but I have not gotten sick since six months ago when I started drinking Green Shake. Wait, there’s more! I used to have dry skin that triggered my eczema. Now, my skin still isn’t that smooth (I’m old! Hahaha) but I no longer have those eczema attacks and my skin is no longer dry. I’ve also had difficulty with my bowel movement before. There are a lot of fiber-rich drinks out there, not to mention the laxatives available in the market, but I’ve never felt this much relief because of Green Shake’s Kamut and Barley Grass ingredients. I can rant (positively) about Vooluu’s Green Shake all day, but it’s not gonna do you any good if you just read about this, so go ahead and try it!
